Introduction: The Campaign Fidelity Tracker is intended to measure monthly progress and fidelity to the five communication campaigns that are delineated in the CTH Intervention Manual. The five campaigns are:1) Naloxone2) Stigma3) MOUD4) MOUD: Stay in Treatment5) Refresh/Repeat of a Previous CampaignPlease use the form below to report on communication campaign activities that occur each month in each wave 1 HCS community. Data collection is intended to span from April 2020 through the end of the intervention. Even if there are no activities to report for a given month in a given community, please still submit the form for that community as there is a question to denote that no activities have occurred.
