

Guide for HCS087 - MOUD Strategy Annotations

Records in this project contain strategy-specific annotations for data entered into the "HCS072 - Ohio MOUD individual reach data" project.

Project Overview

Data pulled on: 2024-12-27 01:12:17

Total number of observations: 49

All fields are counted among field types below even if they contain no data and/or are omitted from this report

<p>Welcome to the HCS072 Annotations Survey! Here is where you can document the decision points that were pivotal to entering this strategy's raw data into HCS072. All questions from HCS072 and their response options show up in this survey. Answer the questions on this page so we know what types of annotations to ask you about. After that, you do not need to enter any responses to questions that you've seen before on HCS072; everything other than annotation boxes are only there to remind you what question you are providing annotations for and what the response options were. For all "Annotation" text boxes, please enter some text. Enter any information that will help a future user of HCS072 data understand the decisions you made as you entered data for the indicated strategy. If you have no annotations to enter, enter "No annotation". This will help us distinguish the fields that were not presented to you for annotation from the ones that you have determined you had no notes for. Please do not write "NA" or "N/A" or "Not applicable" in the annotation text boxes or else REDCap will render them un-editable. Why? We don't know, but let's try to avoid making this job more complicated than it needs to be. (descriptive)</p>	instructions_1
