Number of unique values: 13
Branching logic: [tat06_any_trainings] = '1'

TAT08. How many total hours of TTA were provided this month within this HCS community?

[NOTE: TAT08 is intended to be a sum of the hours of TTA that occurred, irrespective of the number of people reached. For example, a one-hour training on OEND with 15 attendees would be counted as 1 hour. A conference call in that same community in the same month lasting 1.5 hours with an agency about implementing MOUD with 3 participants would be counted as 1.5 hours. In this example, the total value entered for these two activities for TAT08 would be 2.5 hours.] (text) **tat08_hrs_trainings**
