<b>Purpose: The purpose of this form is to collect data on all workgroup and subcommittee meetings in each community that occur outside the regular monthly HCS-designated coalition meeting. This form is intended to only capture data on meetings that are not already being counted in the REDCap project named, "SMS-CommEngage-Meeting Data". The data collected for this measure will be used to assess dosage/exposure to the CTH intervention and to understand how variability in the structure and format of CTH coalitions may influence their ability to complete all 6 phases of the intervention successfully.
